

SP 555 eWXT

Now save quickly and safely under water with this powerful and lightweight all-rounder.

rescue.lukas.com/Rescue+products/eWXT/SP+555+eWXT.html

Advantages

WATERTIGHT

- + Immersion depth guaranteed in fresh water
- + All components are watertight
- + eWXTs work underwater, therefore protection class IP 68 is not applicable
- + Watertight - water can flow around device

5 AH AND 9 AH BATTERY

- + Watertight 5 Ah and 9 Ah battery
- + Improved handling of insertion and locking mechanism
- + Batteries are inserted into the battery compartment vertically from above and slot in automatically

CONTROL VALVE

- + Same star-grip valve but without microswitch

BRUSHLESS ELECTRIC MOTOR (BLM)

- + Lower working noise
- + Lower heat development
- + More torque and more power – with small dimensions
- + Fewer vulnerable mechanical parts

SP 555 eWXT

Now save quickly and safely under water with this powerful and lightweight all-rounder.

- + Lower energy consumption and thus longer device life with one battery charge
- + Longer lifetime
- + By electronically controlling the revolution speed, the working speed of the device is always the same up to the maximum load
- + The BLM motor is located directly on the pump shaft – no gearbox required
- + Water flows around the motor, ensuring it continues to operate reliably even underwater

AXIAL PISTON PUMP

- + Lower noise development
- + Compact design – shorter tool overall
- + Piston units are particularly small and partially disappear in the cylinder body
- + Optimally protected position

SP 555 eWXT

Now save quickly and safely under water with this powerful and lightweight all-rounder.

Technical Data

Spreading force	52 - 658 kN
Spreading distance	730 mm
Squeezing force up to	115 kN
Pulling force up to	58 kN
Pulling distance	569 mm
Dimensions	923 x 265 x 253 mm
Weight	19,9 kg

SP 555 eWXT

Now save quickly and safely under water with this powerful and lightweight all-rounder.

Relevant accessories

+ KSV 11 chain set

Weight: 13.3 kg

Length: 2 x 2 m

Good reasons for LUKAS

eDRAULIC

Maximum liberty for rescue operations.

For more go to rescue.lukas.com/Superiority/eDRAULIC.html

Turbo power

Turbo power for double performance

For more go to rescue.lukas.com/turbo.html

Star grip control

Singular concept for best possible handling.

For more go to rescue.lukas.com/Star_grip_control.html

Mono coupling

Plugging tools more quickly and safely.

For more go to rescue.lukas.com/Mono_coupling.html

Cutter geometry

Maximum force where it is most necessary.

For more go to rescue.lukas.com/Cutter_geometry.html

Multifunction tip

Spreading, squeezing and peeling without having to change tips.
